lift trolley 70E&90E/eng

70E & 90E - HANDY & FLEXIBLE LIGHT LIFTERS

Light lifter made of powder-coated steel and aluminium. Adjustable height with battery.

Lift trolley 70E is suitable for several industries such as warehouses, production industry, food stores, commercial kitchens, workshops, pharmacies.

Incorrect grip and twist positions often lead to load and wear and tear injuries even during normal light lifting. Prevent and avoid this with lifting trolley 70E. Ergonomic lifting. Adjustable handle in height provides better ergonomics.

Standard platform in white plastic polyethylene size 498x440x15 mm.

Lift trolley 70E & 90E can be equipped with variety of platforms and with a higher lift column.

Optional platforms for commercial kitchens, folding platform with Gastro Norm forks 1/1, platform scale with built-in scale cell and screen. Roll handling for industry with roll spear and V-block with turntable.

We can manufacture customized special platforms.
