

## BOWL LIFTER

Lift trolley for bowls 20, 40, 60, 80 litres. Max 90 kg.

Bowl lifter handling from mixer to table surface, alternatively direct handling with perfect working height from the bowl lift by adjusting the height individually.

Equipped with safety features against the risk of crushing and has overload protection.

The bowl lifter can be supplemented with a full-covering top plate. It provides a flexible lifting solution for several areas of use.

The lift trolley can then be used for lifting other heavy objects such as trays, tins, cartons, sacks. No extra tools are needed.
